MONDAY

Craftsman & Apprentice - Enchanted Forest**

"Is your kiddo super into fairies, gnomes, and the magic of forest creatures? Us, too! In this club, makers will create detailed fairy and gnome habitats using natural materials from our cabin in the woods. Makers will create with wool felt, create miniatures, and stitch toadstool stuffies. We'll even craft woodland creature costumes like fairies, gnomes, foxes, or deer for even more imaginative play! Please email [signed waivers](mailto:bethany@craftsmanandapprentice.com) to bethany@craftsmanandapprentice.com"

****1 Scholarship awarded after 8 students register****

Location	Time	Dates of Classes	Min/Max	Grades	Price
TBD	3:10 - 4:40**	Monday 12/2, 12/9, 12/16, 1/13, 1/27, 2/03, 2/10 (7 Session)	8/14	K - 5th	\$305 for session

MONDAY

Inspire to Learn - Escape Room Masters Afterschool - Minecraft Theme**

Escape after-school boredom with our cool Escape Room Master class! Students will learn codes and ciphers, figure out puzzles, solve escape challenges, engage in scavenger hunts, and more! All of this is inspired by the popular Minecraft online game! On the last day, we will bring into the classroom our own "Escape the Minecraft Trap" experience with fun puzzles and props! Come join the fun!

TUESDAY

Little Medical School - Little Doctor School**

"Little Doctor School Section I: Basic Anatomy, Medical instruments and prepping for surgery. Through role-play and activities, students will learn the key responsibilities of a doctor and explore the heart, lungs, and digestion. Students will use real medical instruments (stethoscope, reflex hammer, and blood pressure cuff) and practice scrubbing, suturing, and tying knots like a real surgeon."

little medical school® 
Inspiring health awareness through education.

TBD	3:10 - 4:10	Tuesday 12/3, 12/10, 12/17, 1/7, 1/14, 1/21, 1/28, 2/4, 2/11, 2/18 (10 Sessions)	10/12	K - 5th	\$344 for session

TUESDAY

Brains & Motion - Makersquest- Exploring Science Through Amazing Creations**

"Embark on a MakersQuest adventure exploring toys, gadgets, and games! Dive into building challenges that blend physics with engineering and design thinking. From gravity to momentum, students craft inventive contraptions, deepening their grasp of science while fueling innovation and curiosity. This hands-on course bridges fun learning with practical problem-solving skills, setting the stage for real-world applications. Whether it's toys, gadgets, or games, creativity knows no bounds. Join our journey of discovery and creativity, where every creation is a step towards mastering the art of making!"

WEDNESDAY

City Strings - Ukulele and Songwriting**

Students will be taught how to play the ukulele, listen to each other as an ensemble, and write original songs. Over the years, I've observed students in music classes and noticed they become deeply engaged in the act of self-expression and songwriting, and this is often as fun (for some, if not more fun) than playing their instruments! They can draw, write, and/or have a teacher scribe for them. Students have an outlet to express their unique, wise, creative, fanciful, and hilarious ideas by themselves and/or with a friend. The ability to read helps but is not required. Recommended age 6 and up. NOTE: Students must bring their own ukulele and snack. Learn 3 open chords, write a song, and learn about song structure

****1 Scholarship awarded after 7 students register****

Location	Time	Dates of Classes	Min/Max	Grades	Price
TBD	3:10 - 4:10	Wednesday 12/4, 12/11, 12/18, 1/08, 1/15, 1/22, 1/29, 02/05, 2/12, 2/19 (10 Sessions)	5/10	K - 5th	\$275 for session

WEDNESDAY

Movement Madness**

Movement Madness gives kids a great place to release their energy after a long school day, encouragement to build self-esteem, movement to keep them healthy, games to teach sports skills and sportsmanship, and fun and laughter with new and old friends to develop social and emotional well-being. Movement Madness is the Denver, Colorado-based sports and fitness after-school enrichment program that provides students with an hour or more of fun, physical fitness, and activity in a fun and non-competitive environment. Movement Madness was started in 2006 at Steele Elementary by mom of three and former teacher Jenny Cargile. Our classes encourage kids to get their bodies moving, learn and improve sports skills, and work on team building and sportsmanship – while having fun! We do this through a variety of fun, fast-paced physical education games. Kids need to get moving and this is what we do at Movement Madness.

THURSDAY

Mad Science of Colorado - Science-ology and Techn-ology!! **

"The kids explore the science of lights and color, they learn the differences between mixing colored light and mixing colored paint, movies, illusions, motion, and much more. Children participate in producing and identifying acoustic sounds from a variety of materials. These experiments will also help the students become familiar with the concept of observation, hypothesis, experimentation, and the scientific method."

FRIDAY

Stretch-n-Grow - Yoga Stars**

Yoga Stars classes are EDUCATIONAL and FUN!! Yoga Stars curriculum combines social & emotional learning with breath-to-movement sequences, mindfulness, and games with stories/themes! Yoga and mindfulness have been shown to improve both physical and mental health in school-age children (ages 6 to 12). Yoga improves balance, strength, endurance, and aerobic capacity in children. Yoga and mindfulness offer psychological benefits for children as well. A growing body of research has already shown that yoga can improve focus, memory, self-esteem, academic performance, and classroom behavior, and can even reduce anxiety and stress in children. It's our passion to help kids build a healthy foundation for life. We want to support parents and teachers in their efforts through our programs! Healthy kids make for healthy adults! [Waiver Required](#).

****1 Scholarship awarded after every 10 students register****

TBD	3:10 - 4:10	Friday 12/6, 12/13, 12/20, 1/10, 1/17, 1/24, 1/31, 2/7, 2/21 (9 Sessions)	7/25	Kinder - 2nd Grade	\$214 for session

FRIDAY

Art for Life - All-In-1 Art Class**

Sculpt, paint, and make crafts with award-winning artists for teachers! We'll sculpt animals, paint with watercolors, and make unique crafts & jewelry. Have fun creating art. Learn problem-solving & critical-thinking skills. We believe art gives children confidence and builds their self-esteem. What better way to grow than to be doing something they love? Come join us. Make friends! Make ART!
